

Office of the City Council

June 28, 2013

To Whom It May Concern:

My name is Al Murray and I am the Mayor in the City of Tustin, California. Prior to my service as a councilmember and Mayor Pro-Tem, I proudly served over 30 years in the Irvine Police Department before retiring as a Police Lieutenant. I am an advocate of being healthy and staying fit. One of the goals of our City Council team is to provide more quality playing areas for all of the members of our City along with creating a proactive approach to help decrease childhood obesity, cardiovascular disease, diabetes, depression and high stress levels. Many of today's youth are lacking independent active strategic tools that are necessary to safely diminish stress levels on the mind and body.

This letter is a confirmation of the positive core values that Ray Roman has demonstrated and an affirmation of the non-profit organization that he started in August of 2005 called, Netz 4 Life. Ray was actually one of my personal physical therapist at ProSport Physical Therapy who assisted me in my full active recovery from a total knee replacement. Ray is a true professional in all aspects, with many specializations and certifications that serve to his quality of care and attention to detail. These are the same values which he utilizes to establish community awareness. He brings together all ethnicities to reach a common goal of uniting multiple health services to educate youth and their families on basic nutritional planning advice, physical therapy sport specific exercises and individualized goal assessment. He knows that he is only one person, but through community partnerships, he has been able to make huge strides in Santa Ana and soon to the City of Tustin.

Netz 4 Life was celebrating a ribbon cutting ceremony at the John Adam's Court Revitalization Project in Santa Ana and Ray invited me as a Councilmember of Tustin to participate as a celebrity basketball coach. This was an awesome event! I was impressed that Ray and Netz 4 Life were so inclusive and did not eliminate me from assisting even though the event was in Santa Ana. I was able to see first-hand what Ray and his organization are capable of and how they are able to serve as project managers under large funding projects in an effective manner. More importantly, just having the opportunity to see all the smiles on the community members and leaders faces and having a sense of pride return back to their community, was all I needed to be a Netz 4 Life supporter.

I know that whatever amount of funding that is provided to Netz 4 Life; will be utilized appropriately and not only benefit the community in an impactful manner, but also benefit your Corporation. Netz4 Life is the only non-profit that I know of where 100% of the proceeds go directly to organizational initiatives. It is my honor to recommend Netz 4 Life along with their Founder Ray Roman for this Sports Complex Project. Please feel free to call or contact me if you have any further questions, (714) 573-3010 or at AlMurrayTustin@gmail.com.

Respectfully,

Al Murray
Mayor, City of Tustin
